WORK EXPERIENCE

Thinklar Consultancy (Software Developer) Aug 2026 – Present

- Contributing to the development and maintenance of production-ready web applications using Node.js, Express.js, and React, while building RESTful APIs, implementing business logic, and delivering scalable and maintainable software.

Mplussoft Technology (Software Developer) Jun 2023 – July 2026

- Delivered scalable full stack applications with secure architecture, complex business logic and optimized databases.
- Managed end-to-end development lifecycle, designing high-performance APIs and reliable system deployment.

EDUCATION

United Group of Institutions 2018 – 2022

B.Tech – Computer Science & Engineering | 65.6%

St. Atulanand Residential Academy 2017 – 2018

Intermediate (PCM) | 64.6%

PROJECTS

Sunedge – MLM & E-Commerce Platform

- Built a **full-stack MLM and E-Commerce platform** to manage multi-level marketing networks, business operations, and distributor hierarchies using **Node.js, React.js, PostgreSQL**.
- Designed an **automated commission distribution system** for accurate, real-time multi-tier payout calculations, boosting operational efficiency.
- Developed web panels for Admin, Distributor, and Franchise roles with **RBAC-based access control**, ensuring secure and role-specific workflows.

Career Path – EdTech Learning & Guidance Portal

- Developed a **multi-role EdTech platform** connecting students, universities, industries, and counsellors in a unified ecosystem using **React.js, Node.js, MongoDB**.
- Implemented a **subscription-based model** for learning resources, personalized career roadmaps, and guidance, integrated with **JWT authentication** for 500+ users.

Giridhar Veg – Restaurant Management System

- Built a **full-stack restaurant management and food ordering system** with real-time coordination between admin, kitchen, and customers using **Node.js, Express.js, React.js, MySQL**.
- Implemented **dynamic menu management** and seamless order processing, improving operational speed and customer experience.

SKILLS

- **Frontend:** JavaScript, TypeScript, React.js, jQuery, Tailwind CSS, Bootstrap, HTML5, CSS3
- **Backend:** Node.js, Express.js, RESTful API Design
- **Databases & Tools:** PostgreSQL, MySQL, MongoDB, Git, GitHub, Postman

ACHIEVEMENTS

- Delivered **5+ production applications** supporting 1,000+ active users across multiple industry domains.
- Reduced database query response time by **up to 40%** through query optimization, indexing, and schema refactoring.
- Engineered a real-time **MLM commission engine** handling multi-level payout calculations at scale.
- Designed an enterprise **RBAC system** for 5+ distinct user roles across multiple platforms.
